### **ARZEL ZONING PROVIDES N.A.T.E. CERTIFICATION SCHOLARSHIP**

**CLEVELAND, OH, August 7, 2008**-Arzel® Zoning Technology selected Matt Pearson, a student at the Auburn Career Center, as the recipient of its NATE testing scholarship. This follows an Arzel initiative to help in the on-going development of technicians who will sustain the HVAC industry for years to come.

"We would like to congratulate Matt Pearson for a job well done passing the NATE certification test," said Joe Hlavacek, Director of Marketing for Arzel Zoning Technology Inc. "We've all heard how our industry suffers from a lack of qualified technicians. Arzel recognizes the role manufacturers play not only to provide the products necessary for contractors to be successful but also in developing the skilled technicians needed to install and service our products."

Arzel Zoning has supported the Auburn Career Center by providing a zoning system for their lab along with training their instructors on the operation and installation procedures of zoning. A member of the Arzel technical support team also participates on the school's advisory committee which helps the school adjust its curriculum to meet the needs of the ever changing HVAC industry. This is the second year Arzel has awarded an Auburn Career Center student its NATE certification scholarship.

Educational organizations interested in adding zoning to their curriculum should contact Joe Ramunni, VP of Technical Services at 800-611-8312 or [joe@arzelzoning.com](mailto:joe@arzelzoning.com) for more information.

The Auburn Career Center is a skill development and career preparation center that offers students challenging opportunities in its current and continuously improving programs. For more information on the Auburn Career Center or one of its programs, please call (800) 544-9750 or visit [www.auburncc.org](http://www.auburncc.org).

Arzel® Zoning Technology, Inc. is the industry leader and innovator in HVAC zone control systems for retrofit HVAC zoning as well as new construction projects. Arzel solutions are available throughout North America via a growing network of contractors and wholesale distributors. The patented solutions offered by Arzel lead the zoning industry in installation flexibility, reliability and warranty. For more information Arzel® products please visit [www.arzelzoning.com](http://www.arzelzoning.com) or contact a local HVAC distributor.
